

7 King's Bench Walk Diversity Data

(as at January 2022)

The data below is based on information collated through a survey carried out in accordance with the recommendations and guidance of the Bar Standards Board. The survey was conducted anonymously and participation was voluntary.

Approximately 57 percent (52 responses) of members and employees submitted responses, and the data set below is based on the responses actually received. Total numbers may differ from category to category because a response to each question was voluntary. Data is not published where its publication might reasonably lead to the identification of individuals without those individuals' consent.
